- environmental authorization to mine aggregate from a portion of Remaining Extent of Farm 89, Ngquza Hill Local Municipality, Eastern Cape Province.
- environmental authorization in terms of regulation 16(1) of the EIA Regulations to stockpile material on the above-mentioned property.
- a mining permit in terms of Section 27 of the MPRDA;

The proposed mining footprint will be 5 ha and will be developed over an undisturbed area of the farm. The aggregate will be stockpiled until it is transported from site using tipper trucks. All mining related activities will be contained within the approved mining permit boundaries.

In addition to the mining permit application, the applicant proposes to establish a 19-ha area for stockpiling and crushing of the material mined from the quarry on the same property. The material will be transported from the quarry into the stockpile area where it will be screened/crushed and stockpiled until removed from site.

The proposed two projects trigger the following listed activities in terms of NEMA, and the EIA Regulations 2014 (as amended):

SASSA Child Support Grant For Enzo!

Avuyile Ncanga

Child Support Grant. Applicants must meet the following requirements: The primary care giver must be a South African citizen, permanent resident or refugee.

Child support grant is a grant given to children from the ages of 0 to 18 years, the grant is supposed to be earned through the primary caregiver of the child.

On the pay date of children the buzz word here in Bizana is “Kurhola Ooma ka Enzo” direct translates It is a payday for mothers of Enzo(yeah that’s the English) this particular day is known to be a very busy business day.

The question here is, does Enzo get what’s due to them, If not who then are we to blame? Are we blaming the unemployment rate or the mother who drinks Enzo’s money?

Reality is that people have lost hope some have even stopped applying for jobs because of the state South Africa is bad and some families solely survive with Enzo’s money.

Using The voice Of The People Pondoland Times to get the sense of reality of people’s lived experiences and opinions.

Quan Dambuza

In the heart of Pondoland, amidst the rolling hills and close-knit communities, one man's journey stands as a beacon of hope and inspiration. Siyabonga Mabunda, a 31-year-old native of KwaSomopho village in Empangeni, Kwa-Zulu Natal, is not only the pride of his community but a driving force for positive change on a larger scale.

Raised by his father after losing his mother at a young age, Siyabonga's upbringing instilled in him a deep respect for tradition, a connection to nature, and a profound belief in community and collectivism. These values laid the foundation for his remarkable career path, where he has dedicated himself to addressing social injustices and inequalities through community development and public policy.

"My interest in community development was sparked by my desire to make a positive impact in previously disadvantaged communities," Siyabonga explains. "I wanted to be part of a group of professionals dedicated to making positive changes in society."

His journey began with a strong passion for politics and involvement in student governance, where he gained insight into the intricacies of policy-making and implementation. Armed with

Siyabonga's educational journey, which includes a Master's in Public Administration, Honours and BA degrees in Development Studies, and a Certificate in Strategic Planning and Management, equipped him with the necessary knowledge and skills to engage effectively in community development activities. Through his seven years of service in the Department of Social Development, Siyabonga has spearheaded various initiatives aimed at uplifting marginalized communities.

Among his most rewarding experiences are his leadership role in the Community Nutrition and Development Centre (CNDC), where he provides support to those experiencing homelessness, poverty, and hunger. Additionally, his involvement in the Provincial Youth Camp Coordination team and Umzimvubu-Tsitsikama Catchment Forum reflects his commitment to empowering young people and advocating for community needs.

"Growing up in a marginalized community gave me firsthand experience of the challenges faced by these communities," Siyabonga reflects. "It shaped my perspective on what issues are most important to address in community development and public policy."

Looking to the future, Siyabonga sees himself completing his PhD in Public Policy
