

**PROPOSED SILTY SAND AND QUARTZITIC
SANDSTONE PEBBELS MINE ON A PORTION OF
PORTION 2 OF THE FARM BONNE ESPERANCE 83,
TULBAGH, WESTERN CAPE PROVINCE**

DEPARTMENTAL REFERENCE NUMBER

WC30/5/1/3/2/10352MP

PROOF OF PUBLIC PARTICIPATION PART 2

JANUARY 2025

LANDOWNER CONSENT

GA
A.J. du Plessis Boerdag Pkg

I, Andre du Plessis, as landowner, am aware and give permission for Power Construction (Pty) Ltd to apply for environmental authorization (EA) and a mining permit to extract silty sand and quartzitic sandstone pebbles from Portion 2 of the Bonne Esperance Farm 83 in Tulbagh, Western Cape Province as per snippet below:

Decommissioning and Rehabilitation:

- Includes site landscaping, top dressing, and removal of all infrastructure and waste.
- All infrastructure, equipment, and other items used during the mining period will be removed from the site (section 44 of the MPRDA).
- Waste material of any description, including receptacles, scrap, rubble, and tyres, will be removed entirely from the mining area and disposed of at a recognised landfill facility. It will not be permitted to be buried or burned on the site.

Signed:

Andre du Plessis
084 515 5678

Date: 22 January 2025

**NOTICE OF LAND USE APPLICATION FOR THE PROPOSED
CONSENT USE ON PORTION 2 OF THE FARM 199, CLANWILLIAM,
LODGED TO THE MUNICIPALITY OF CEDERBERG MUNICIPALITY,
LAND USE APPLICATION ID 3789645**

**PROOF OF LANDUSE APPLICATION ADVERTISED IN THE PAARL
POST NEWSPAPER**

Saul put krag uit vrugbare wingerd

Lise Beyers

“As jy daardie heerlike vet, soet en sappige druivekorrel in jou mond sit, moenie dink dit word toe-oë in ’n fabriek vervaardig nie,” sê Saul Clarke terwyl hy ’n tros swaar en ryp druive met sy verwerde hande liefderik oplig.

“Nee,” verduidelik hy, sy oë glinsterend van trots terwyl hy deur die rye wingerd stap, “elke tros druive wat hiër op De Hoop verpak word, word deurgaans sorgvuldig met die hand gekoester – vanaf bloeityd totdat ons dit self verpak en landuit stuur. Dis ’n jarelange proses van toewyding.”

Die laatmiddagson gooi lang skaduwees oor die wingerde van De Hoop-plaas in die Paarl. Die druiveparsingseisoen het pas begin, en Saul, die wingerdvoorman, is in sy element. Sy gesig straal van vreugde terwyl hy deur die spog- tafeldruifwingerde stap en die vet trosse aanskou wat tussen die blare soos juwele aan ’n kroon hang.

“Kyk hier,” sê hy opgewonde terwyl hy by ’n spesifieke blok stilstaan. “Môre begin ons span hier pluk. Die suiker is presies

De Hoop-plaas in die Paarl se voorman, Saul Clarke, ondersoek ’n bossie ivory-druive, wat binnekort reg gaan wees vir pluk en uitvoer, noukeurig. Saul sê vanjaar se druive-oers is van uitstekende gehalte – een van die bestes wat hy nog beleef het. Foto: Lise Beyers

reg; die kleur perfek.”

Hy ken elke blok soos die palm van sy hand – elke kultivar en die geskiedenis van elke wingerdstok. Met die presisie van ’n dirigent dui hy aan watter blokke wanneer gepars sal word – eers die Prime Seedless met hul

delikate, soet smaak, dan die Sugranineteen wat so gewild is in die uitvoermarkt, en met die afsluit van die seisoen sal die manjifieke Red Globe met hul diep kleur en vol geur gepluk word.

Ses en dertig jaar se ondervinding het Saul se kennis

van hierdie grond en wingerde so diep soos die wortels self laat groei. In 1989 het hy as algemene werker begin – die mees junior pos op die plaas.

“Ek het als gedoen,” onthou hy met ’n glimlag. “Ek het die pakstoor uitgevee, tuine geskoffel en druive gepluk. Niks was te min of te veel nie.”

Die destydse plaaseienaar, Mike Clift, het Saul se potensiaal raakgesien.

“Jimmy het vir my stapels boeke en tydskrifte oor wingerdboerdery gegee. Saans ná werk het ek myself in dié kennis verdiep. Ek wou als weet – van grondsamesstelling tot snoeimetodes; van plaagbeheer tot optimale oestye.”

Maar Saul se pad was nie sonder struikelblokke nie. Hy praat openhartig dat hy te veel gedrink het. “Totdat ek een dag besef het ek mors nie net geld nie; ek mors my lewe. En hierdie wingerde, hierdie plaas, het te veel potensiaal om dit te laat gebeur.”

Met karakteristieke wysheid deel hy sy lewensfilosofie: “Jy gaan nie sukses vind as jy net wag dat iemand dit vir jou gee nie. Die lewe werk nie so nie. Jy moet hard werk, elke dag leer, en elke geleentheid

aangryp asof dit jou laaste een is.”

Hy skud sy kop wanneer hy oor vandag se jongmense praat. “Te veel van hulle wag vir ’n wonderwerk. Hulle wil als hê, maar wil niks gee nie.”

De Hoop is meer as net ’n werkplek vir Saul – dis sy hartklop. Hier het hy sy vrou ontmoet en hier het hy sy kinders grootgemaak. Vandag werk sy vrou en twee van sy kinders ook op die plaas – getuiedenis van die Clarke-familie se verbintenisse met De Hoop.

Verlede jaar se diagnose van bloedkanker was ’n harde slag, maar selfs dit kon nie Saul se gees breek nie. “Elke oggend as ek wakker word, sien ek uit daarna om tussen my wingerde te loop,” sê hy. “Die dokters sê ek moet rus, maar hierdie wingerde gee my krag. Elke druivekorrel wat ek sien ryp word, herinner my dat die lewe aangaan; dat daar hoop is.”

Hy vat weer aan ’n tros druive en sy vingers streef liefderik oor die korrels.

“Ek gaan hierdie siekte wen,” sê hy vasbeslote. “Maar eendag, wanneer my tyd kom, wil ek hier op De Hoop my laaste asem uitblaas – tussen hierdie wingerde wat my lewe gevorm het.”

Skoolgeld en klerepryse laat die oë rek

Jana Scheepers

Vanjaar se skoolgeld gaan ouers en voogde se beursies behoorlik laat kreun wanneer ’n ekstra 6,3% opgedok moet word om hul kroos op die skoolbanke te hou.

Volgens Statistiek Suid-Afrika (SSA) se nuutste studie het skoolgeld in 2024 met 6,3% gestyg, wat 3,4% hoër is as die land se huidige inflasiesyfer van 2,9%, wat in November 2024 aangekondig is.

Hiërdie styging is ook die hoogste sedert 2020 toe onderwyskoste met 6,3% gestyg het.

Volgens Millicent Merton, ’n woordvoerder van die Wes-Kaapse departement van onderwys, bepaal dié staatsdepartement nie die skoolgeld nie.

“Die jaarlikse skoolgeld word deur skoolbeheerliggame vasgestel en nie die provinsiale onderwysdepartement nie. Skoolgeld verskil van een skool tot ’n ander en word bepaal op ’n jaarlikse begrotingsvergadering waarheen alle ouers genooi word,” het Merton gesê.

Op die oomblik beloop staatskole se laerskoolgeld ongeveer R24 400 per jaar, terwyl dié van private laerskole rondom R71 500 draai.

Vir hoërskoolopvoeding moet ouers onderskeidelik ongeveer R36 000 vir staatskole en R105 000 vir private skole begroot.

In die Paarl, wat van Suid-Afrika se mees gesogte skole huisves, is skoolgelde self nóg hoër.

Hoërskoolgeld in Paarl-Wes kos ongeveer R60 000 per jaar en laerskole R33 000.

Dit is nog voordat ’n enkele sent aan uniforms of skryfbehoeftes bestee is.

Sarah Nicholson van JustMoney.co.za beklemtoon onderwys is ten spyte van die hoë koste steeds een van die belangrikste beleggings in ’n kind se toekoms.

“Deeglike beplanning en slim begrotingsbestuur kan help om die finansiële las te verlig,” sê sy.

Skoolgeld is egter nie die enigste prysverhoging waarvoor begroot moet

word nie, maar ook skoolkore.

Paarl Post het by vier klerewinkels wat skoolklere verkoop, gaan aanklop om hul pryse te vergelyk.

Volgens PEP se aanlyn winkel sal ’n mandjie bestaande uit twee wit kortmouhemde, ’n trui en kortbroek van enige kleur, twee paar grys sokkies en ’n paar skoolskoene vir ’n laerskoolseun tussen R385 en R430 kos, na gelang van die grootte.

Laerskoolmeisies se ouers sal tussen R421 en R470 opdok vir twee wit kortmouhemde, ’n trui en romp van enige kleur, twee paar wit sokkies en ’n paar skoolskoene.

Ackermans vra tussen R550 en R785 vir ’n laerskoolseun se klere indien dieselfde kledingstukke gekoop word, terwyl meisies se ouers tussen R625 en R750 sal betaal.

Woolworths is die duurste, waar ’n mandjie skoolklere vir seuns jou tussen R930 en R1 050 uit die sak sal jaag, en vir laerskoolmeisies tussen R780 en R950.

DRAKENSTEIN MUNICIPALITY
OFFICIAL NOTICE: APPLICATION FOR TEMPORARY
DEPARTURE IN TERMS OF SECTION 15(2) OF THE
DRAKENSTEIN BY-LAW ON MUNICIPAL LAND USE
PLANNING, 2018:
PORTION 2 OF FARM BONNE ESPERANCE NO. 83,
TULBAGH RD

Notice is hereby given in terms of the Drakenstein By-Law on Municipal Land Use Planning, 2018, that an application as set out below has been submitted to the Drakenstein Municipality, Land Use Planning Section. A comprehensive copy of the application is available for viewing and can be requested by sending an email to planning9@rumboll.co.za or by contacting the applicant telephonically: Roeben Pienaar (022 482 1845)

Property : Portion 2 of farm Bonne Esperance No. 83, Tulbagh Registration Division
Owner : A J Du Plessis Boerdery Pty Ltd
Zoning : Agricultural Zone
Applicant : CK Rumboll & Partners (Contact No: 022 482 1845)
Locality : Situated in the northern part of Drakenstein Municipality between Gouda and Porterville
Total Extent: Portion 2 of Farm Bonne Esperance No. 83, Tulbagh RD – 554.2101 Ha

Proposal :
1. Temporary Departure in terms of Section 15(2)(c) of the Drakenstein Municipality Land Use Planning By-Law (Pg7983 of 28 September 2018) in order to establish a temporary silty sand and quartzitic sandstone pebbles mine, not exceeding an area of 5 Hectares.

Motivated objections or comments can be lodged in writing to Drakenstein Municipality, PO Box 1, Paarl, 7622 or electronically to customer@drakenstein.gov.za. Note that submissions must comply with Section 50 of the Drakenstein By-Law on Municipal Land Use Planning, 2018, and must reach the Municipality, by no later than 30 days after the date of the notification letter.

CLOSING DATE FOR OBJECTIONS: 16 February 2025
ADDRESS OF APPLICANT: 16 Rainier Street Malmesbury Western Cape

DRAKENSTEIN MUNISIPALITEIT
AMPTELIKE KENNISGEWINNING: AANSOEK OM TYDELIKE
AFWYKING IN GEVOLGE ARTIKEL 15(2) VAN DIE
VERORDENING OP MUNISIPALE
GRONDGEbruiksBEPLANNING, 2018:
GEDEELTE 2 VAN PLAAS BONNE ESPERANCE NO. 83,
TULBAGH RD

Kennis geskied hiermee ingevolge die Drakenstein Verordening op Munisipale Grondgebruiksbeplanning, 2018, dat ’n aansoek soos hieronder uiteengesit ingedien is by die Drakenstein Munisipaliteit Grondgebruiksbeplanning Afdeling. ’n Volledige kopie van die aansoek is beskikbaar ter insae en kan aangevra word deur ’n epos te stuur na planning9@rumboll.co.za of deur die aansoeker telefonies te kontak: Roeben Pienaar (022 482 1845)

Eiendom : Gedeelte 2 van Plaas Bonne Esperance No. 83 Tulbagh RD
Eienaar : A J Du Plessis Boerdery Pty Ltd
Sonering : Landbou Sone
Aansoeker : CK Rumboll & Vennote (Kontak No: 022 482 1845)
Ligging : Geleë in die noordelike deel van Drakenstein Munisipaliteit, tussen Gouda en Porterville.
Totale Grootte : Gedeelte 2 van Plaas Bonne Esperance No. 83, Tulbagh RD – 554.2101 Ha

Voorstel :
1. Tydelike Afwyking ingevolge Artikel 15(2)(c) van die Drakenstein Munisipaliteit Grondgebruiksbeplanning verordening (PG7983 van 28 September 2018) ten einde ’n tydelike silksand- en kwartsitiese sandsteen klip myn te vestig, wat nie ’n oppervlakte van 5 hektaar oorskry nie.

Gemotiveerde besware of kommentare kan skriftelik ingehandig word by Drakenstein Munisipaliteit, Posbus 1, Paarl, 7622 of elektronies by customer@drakenstein.gov.za. Neem kennis dat inhandiging moet voldoen aan artikel 50 van die Drakenstein Verordening op Grondgebruiksbeplanning, 2018 en dat die Munisipaliteit moet bereik, nie later as 30 dae na die datum van die kennisgewings brief.

To whom it may concern:

RE: NOTICE OF THE DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR A MINING PERMIT APPLICATION IN TERMS OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) (MPRDA), THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA), AND THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) (EIA REGULATIONS) SUBMITTED BY POWER CONSTRUCTION (PTY) LTD. REFERENCE NUMBER: WC30/5/1/3/2/10352MP

The Draft Basic Assessment Report (DBAR) with Environmental Management Programme (EMPR), for the proposed mining of silty sand and quartzitic sandstone pebbles from Portion 2 of the Bonne Esperance Farm 83 in Tulbagh, Western Cape Province. is now available for your perusal.

A copy of the document can be obtained from Greenmined Environmental (Pty) Ltd upon request or downloaded from the company website at <https://www.greenmined.com/mining-permits/>.

Should you be interested your comments are kindly requested on the DBAR & EMPR. A thirty-day commenting period, ending on **14 January 2025** for the mining permit application, and a sixty-day commenting period for the Water use License Application (WULA), from 15 November 2024 to **08 February 2025** will be allowed for comments. (WULA reference number for commenting **CT31086**)

Your comments must be in writing and can be submitted via e-mail and/or post. Kindly ensure that your contact details are included with your comments.

Please contact Sonette Smit at (084) 585 5706 or Tel (021) 851 2673, (Fax) (086) 546 0579, (email) comments@greenmined.co.za should you require any additional information.

Your feedback is valued and will be addressed appropriately.

RE: NOTICE OF THE DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR A MINING PERMIT APPLICATION IN TERMS OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) (MPRDA), THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA), AND THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) (EIA REGULATIONS) SUBMITTED BY POWER CONSTRUCTION (PTY) LTD. REFERENCE NUMBER: WC30/5/1/3/2/10352MP

The Draft Basic Assessment Report (DBAR) with Environmental Management Programme (EMPR), for the proposed mining of silty sand and quartzitic sandstone pebbles from Portion 2 of the Bonne Esperance Farm 83 in Tulbagh, Western Cape Province. is now available for your perusal.

A copy of the document can be obtained from Greenmined Environmental (Pty) Ltd upon request or downloaded from the company website at <https://www.greenmined.com/mining-permits/>.

Should you be interested your comments are kindly requested on the DBAR & EMPR. A thirty-day commenting period, ending on **14 January 2025** for the mining permit application, and a sixty-day commenting period for the Water use License Application (WULA), from 15 November 2024 to **08 February 2025** will be allowed for comments. (WULA reference number for commenting **CT31086**)

Your comments must be in writing and can be submitted via e-mail and/or post. Kindly ensure that your contact details are included with your comments.

Please contact Sonette Smit at (084) 585 5706 or Tel (021) 851 2673, (Fax) (086) 546 0579, (email) comments@greenmined.co.za should you require any additional information.

Your feedback is valued and will be addressed appropriately.

Dear Greenmined Environmental

The message below refers to your application for the submission of a property environmental study for comment (Application No - 2024-12-0028) submitted to the Western Cape Government on 2024/11/24:

Properties related to the application :

- Portion 2 of Farm BONNE ESPERANCE 83, TULBAGH

Supporting documents submitted with the application :

- Basic Assessment Report - (DBAR - Gouda.pdf)
- Site Layout Plan - (Appendix B Locality and Land Use Map.pdf)

The matter is receiving attention, and further communication will be addressed to you as soon as circumstances permit.

Best Regards,
Western Cape Government

Note:

Please ensure that you reply to this email when corresponding with us and that the application number is correctly contained in the subject line in the format App No: xxxx-xx-xxxx. Emails without this number correctly added to the subject line will not be monitored or received.

**PROOF OF UPLOAD ON GREENMINED ENVIRONMENTAL

Subject: Mining Permit Application - Portion 2 of the Bonne Esperance Farm 83, Tulbagh

Good day,
would you please give us access to all data concerning the case in question. You can please do this by sharing a direct link to your website. Thank you.

Unfortunately, we could not find any of the information on your website as the Mining Permits Application information is crypted **and** WC30/5/1/3/2/10352MP is **not** reflected under the chapter 'Mining Permit Applications'.

Witzenberg Herald excerpt:

NOTICE OF MINING PERMIT APPLICATION

Notice in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA), and the Environmental Impact Assessment Regulations 2014 (as amended), that Power Construction (Pty) Ltd applied for:

- environmental authorization to extract silty sand quartzitic sandstone pebbles from Portion 2 of the Bonne Esperance Farm 83 in Tulbagh, Western Cape Province
- a mining permit in terms of Section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No 28 of 2002) to the Department of Mineral Resources.
- a possible water authorisation in terms of the National Water Act, 1998 (Act No 36 of 1998).

The proposed mining operation spans approximately 5 hectares over an undisturbed area of the farm, which is occasionally used for agricultural purposes.

The proposed project triggers the following listed activities in terms of NEMA, 1998 and the EIA Regulations 2014 (as amended) and therefore requires a basic assessment process to obtain environmental authorization:

- **GNR 983 Listing Notice 1 Activity 21:**
Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice or in Listing Notice 3 of 2014, required to exercise the mining permit.

The Draft Basic Assessment Report (DBAR) with Environmental Management Programme (EMPR), will be available for public comment as follows:

- Mining Permit Application, from 25 November 2024 to 14 January 2025; and
- Water Use License Application (WULA), from 15 November 2024 to 08 February 2025 (if required);

Copies thereof can also be obtained from Greenmined upon request or downloaded from www.greenmined.com. Interested and Affected Parties are invited to provide written comments within the above timelines. Please use WC30/5/1/3/2/10352MP as the reference number when commenting.

By taking part in this process, you hereby consent, in terms of the Protection of Personal Information Act 4 of 2013 ("POPIA"), to the lawful processing of your personal information by Greenmined, which personal information may be used as part of documentation pertaining to the Environmental Authorisation application process. By providing your details and by taking part in his process you authorise such information to be shared for the purpose of this application.

RE: NOTICE OF THE DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR A MINING PERMIT APPLICATION IN TERMS OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) (MPRDA), THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA), AND THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) (EIA REGULATIONS) SUBMITTED BY POWER CONSTRUCTION (PTY) LTD. REFERENCE NUMBER: WC30/5/1/3/2/10352MP

The Draft Basic Assessment Report (DBAR) with Environmental Management Programme (EMPR), for the proposed mining of silty sand and quartzitic sandstone pebbles from Portion 2 of the Bonne Esperance Farm 83 in Tulbagh, Western Cape Province. is now available for your perusal.

A copy of the document can be obtained from Greenmined Environmental (Pty) Ltd upon request or downloaded from the company website at <https://www.greenmined.com/mining-permits/>.

Should you be interested your comments are kindly requested on the DBAR & EMPR. A thirty-day commenting period, ending on **14 January 2025** for the mining permit application, and a sixty-day commenting period for the Water use License Application (WULA), from 15 November 2024 to **08 February 2025** will be allowed for comments. (WULA reference number for commenting **CT31086**)

Your comments must be in writing and can be submitted via e-mail and/or post. Kindly ensure that your contact details are included with your comments.

Please contact Sonette Smit at (084) 585 5706 or Tel (021) 851 2673, (Fax) (086) 546 0579, (email) comments@greenmined.co.za should you require any additional information.

Your feedback is valued and will be addressed appropriately.

Kind Regards/Vriendelike Groete

Subject: AW: Mining Permit Application - Portion 2 of the Bonne Esperance Farm 83, Tulbagh

Good day Anel,
thank you very much for your quick response and the uploaded documents.

We can see that this mining permit application is for the area near Molenaarsdrift / Kleinbergrivier / Saron – all situated in the Drakenstein Municipality.

Would you be able to explain, why in your application you mentioned the town of Tulbagh, which is situated on the other side of the mountain, and also in the Witzenberg Municipality?

We are looking forward hearing from you!

With kind regards,
Ulf Teske.

Dear Sir,

Thank you for your email and taking part in the public participation process.

I hereby confirm that you are registered as an Affected and Interested party, and will be included in all future correspondence on this project.

Kindly note as per the advert placed in the Witzenberg Herald that the public participation period only starts today, 25th of November 2024.

Subject: RE: Mining Permit Application - Portion 2 of the Bonne Esperance Farm 83, Tulbagh

Dear Ulf Teske,

Thank you for participating in the public participation process. Your interest and involvement are greatly appreciated.

Regarding your initial inquiry, as per the information shared in the Witzenberg Herald excerpt, the mining permit application documents were scheduled to be available from 25th November 2024 to 14th January 2025. I am pleased to confirm that the documents are now accessible on our website. For your convenience, please follow this direct link: <https://www.greenmined.com/mining-permits/>

As for your second inquiry regarding the location mentioned in the application, the reference to Tulbagh pertains to the application area as identified in the registered title deed for the property, specifically over Portion of Portion 2 Bonne Esperance, situated in the Magisterial District of Tulbagh. This information has been verified through the Surveyor General's Office and confirmed by the Department of Mineral Resources and Energy (DMRE).

We trust this clarifies the matter and resolves any uncertainties. Should you have further questions or require additional assistance, please do not hesitate to reach out.

Kind regards,

Kind Regards/Vriendelike Groete

Good afternoon, Sonette and Anel

I hope you are doing well.

I just wanted to ask for an extension to provide you with CapeNature's comments regarding the Notice of the Draft Basic Assessment Report and Environmental Management Programme for a Mining Permit Application in terms of the Minerals and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA), and the Environmental Impact Assessment regulations, 2014 (as amended) (EIA Regulations) submitted by Power Construction (Pty) Ltd – for Portion 2 of Farm 83 (Bonne Esperance) in Gouda.

I have multiple comments due today and tomorrow and I couldn't finish all of them. I will provide you with CapeNature's comments as soon as possible.

Kind regards

Leandra

Dear Sonette and Anel

I hope you are doing well!

Thank you for the opportunity to comment on the Notice of the Draft Basic Assessment Report and Environmental Management Programme for a Mining Permit Application in terms of the Minerals and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA), the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA), and the Environmental Impact Assessment regulations, 2014 (as amended) (EIA Regulations) submitted by Power Construction (Pty) Ltd – for Portion 2 of Farm 83 (Bonne Esperance) in Gouda.

Please find attached CapeNature's comments and recommendations.

Please can I ask you to send us a kmz/kml or shapefile of the Proposed Development site (Footprint/size of the new mining area) – we need it for our records. Thanks in advance.

Enjoy the rest of your week.

Kind regards
Leandra

Dear Ms Smit

RE: Application for a mining permit submitted by Power Construction (Pty) Ltd on portion 3 of Farm Bonne Esperance No. 83 – Draft Basic Assessment Report
Reference Number: WC30/5/1/3/2/10352MP

CapeNature would like to thank you for the opportunity to comment on the Draft Basic Assessment Report. Please note that our comments pertain primarily to impacts on biodiversity and not to the overall desirability of the project.

1. According to the South African Vegetation Map (2018), the proposed mining area historically supported Swartland Shale Renosterveld, a Critically Endangered Vegetation Type and a small area of Swartland Alluvium Fynbos, an Endangered Vegetation Type. However, the area appears to be completely transformed by wheat cultivation and no natural vegetation remains except for small, scattered patches across the farm and areas surrounding the Klein Berg River, South-West of the proposed site.
2. The proposed site is partially situated within an Ecological Support Area (ESA 2: Restore) - which can play an important role in supporting the functioning of Critical Biodiversity Areas (CBAs) and can be vital for delivering ecosystem services. The ESA is mapped due to the presence of a watercourse (non-perennial stream) and where possible, the area should be restored and/or managed to maintain soil and water-related services.
3. According to the Department of Water and Sanitation's (DWS) Risk Matrix Assessment, the proposed site falls within quaternary catchment G10F which forms part of the Berg-Olifants Water Management area (WMA). There is one non-perennial stream within 100m of the proposed mining area, however the stream has been highly canalised and modified to accommodate the surrounding agricultural activities. Additionally, there is one perennial River, the Klein Berg River, which is located about 1km away from the mining footprint and we agree with the freshwater specialist that it is unlikely to be impacted by the project. Nevertheless, silt/sediment traps/barriers should be used where there is a danger of topsoil or material stockpiles eroding and entering downstream drainage lines or other sensitive areas. These sediment/silt barriers should be regularly maintained and cleared to ensure effective drainage of the areas and runoff water on exposed areas should be controlled.

4. The Terrestrial Biodiversity Impact Assessment confirmed that no areas were found to support indigenous vegetation within the proposed mining footprint and development area and that the threshold for triggering the botanical related NEMA activities is not exceeded.
5. We agree with the mitigation measures set out in the Environmental Management Programme (EMPr) to minimize environmental impact and ensure sustainable development. The mitigation measures of high importance are:
 - a. The mining boundaries must be clearly demarcated, and all operations must be contained to the approved mining area. The area outside the mining boundaries must be declared as a no-go area, and areas of indigenous vegetation communities outside of the direct project footprint, if present, should under no circumstances be fragmented or disturbed further.
 - b. Any erosion problems within the mining area as a result of the mining activities observed must be rectified immediately (within 48 hours) and monitored thereafter to ensure that it does not re-occur.
 - c. Mining must be conducted only in accordance with the Best Practice Guideline for small scale mining that relates to storm water management, erosion and sediment control and waste management, developed by the Department of Water and Sanitation (DWS). Clean water (e.g. rainwater) must be kept clean and be routed to a natural watercourse by a system separate from the dirty water system. Furthermore, a storm water management plan must apply for the entire life cycle of the mining activity.
6. We recommend that removed topsoil is kept separately from other soils and that no stockpiles are placed near any natural areas. Topsoil stockpiles should be protected from any erosion, pollution or contamination, as the soil must be used again for rehabilitation which should be conducted concurrent to mining - the mining area should be divided into blocks of no larger than 1 hectare and only one block should be mined at a time and rehabilitated as soon as excavation begins on the next block. We also suggest that a qualified Environmental Control Officer (ECO) should be appointed to ensure that the mitigation measures set out by the Terrestrial Biodiversity Impact Assessment and Agriculture Impact Assessment are implemented.
7. CapeNature does not object to the mining application, provided that adequate avoidance and mitigation measures including rehabilitation will be implemented during the construction and operational phases of the open-cast mine and that the proposed mitigation measures set out in the EMPr are implemented and adhered to.

CapeNature reserves the right to revise initial comments and request further information based on any additional information that may be received.

Yours sincerely

Leandra Knoetze

Subject: DBAR NOTICE WC30/5/1/3/2/10352MP Stakeholders

To whom it may concern:

RE: NOTICE OF THE DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR A MINING PERMIT APPLICATION IN TERMS OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) (MPRDA), THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA), AND THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) (EIA REGULATIONS) SUBMITTED BY POWER CONSTRUCTION (PTY) LTD. REFERENCE NUMBER: WC30/5/1/3/2/10352MP

The Draft Basic Assessment Report (DBAR) with Environmental Management Programme (EMPR), for the proposed mining of silty sand and quartzitic sandstone pebbles from Portion 2 of the Bonne Esperance Farm 83 in Tulbagh, Western Cape Province. is now available for your perusal.

A copy of the document can be obtained from Greenmined Environmental (Pty) Ltd upon request or downloaded from the company website at <https://www.greenmined.com/mining-permits/>.

Should you be interested your comments are kindly requested on the DBAR & EMPR. A thirty-day commenting period, ending on **14 January 2025** for the mining permit application, and a sixty-day commenting period for the Water use License Application (WULA), from 15 November 2024 to **08 February 2025** will be allowed for comments. (WULA reference number for commenting **CT31086**)

Your comments must be in writing and can be submitted via e-mail and/or post. Kindly ensure that your contact details are included with your comments.

Please contact Sonette Smit at (084) 585 5706 or Tel (021) 851 2673, (Fax) (086) 546 0579, (email) comments@greenmined.co.za should you require any additional information.

Your feedback is valued and will be addressed appropriately.

Kind Regards/Vriendelike Groete

Dear Madam

COMMENTS ON THE DRAFT BASIC ASSESSMENT REPORT IN TERMS OF THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) AND THE WATER USE LICENCE APPLICATION ("WULA") IN TERMS OF THE NATIONAL WATER ACT 36 OF 1998 ASSOCIATED WITH THE MINING PERMIT ON PORTION 2 OF THE FARM BONNE ESPERANCE NO. 83, SARON (DMRE REF: WC 30/5/1/3/2/10352MP; WULA REF: CT31086)

1. The email notification of 25 November 2024 regarding the availability of the Draft Basic Assessment Report ("BAR") in terms of the Environmental Impact Assessment ("EIA") Regulations, 2014 (as amended) and the water use licence application ("WULA") in terms of the National Water Act, 2008 (Act No. 36 of 1998) ("NWA"), refer.
2. Thank you for the opportunity to provide comments on the Draft BAR and the WULA associated with the mining permit application. Please find consolidated comment from various directorates within the Department on the Draft BAR and Environmental Management Programme ("EMPr") dated November 2024, the Risk Assessment Matrix in support of the WULA, and associated documentation that were available for download from the website of the environmental assessment practitioner ("EAP").

Directorate: Development Facilitation – Ms Adri La Meyer (Email: Adri.LaMeyer@westerncape.gov.za; Tel.: (021) 483 2887):

Comments on the WULA:

3. It is noted that a WULA Technical/ Motivation Report was not made available on the EAP's website. In the absence of this document, this Directorate is unable to provide detailed comments on the WULA, as the following information normally included in a WULA Technica/ Motivation Report, is lacking:
 - 3.1. Project details.
 - 3.2. Location and water use/s being applied for.
 - 3.3. Any existing lawful water uses on the property.
 - 3.4. WULA process undertaken thus far and registration on e-WULAAS.
 - 3.5. Reports and other technical documents requested by the relevant water use licensing authority.
 - 3.6. Mitigation measures for water use activity/ies.
 - 3.7. Summary of relevant specialist reports.

4. The Section 21 (c) and (i) Risk Assessment prepared by Afzelia Environmental Consultants (Pty) Ltd dated 15 November 2024 notes that the WULA relates to water uses identified in terms of section 21 (c) and (i) of the NWA, 1998, as a non-perennial stream is located within 100m of the proposed mining area. It is further indicated that a "non-prioritised wetland" is located within 500m of the site, which is regarded as a small dam system.
 - 4.1. Please note that in the absence of ground-truthing of the proposed mining area, the water use licensing authority may regard the Risk Assessment as incomplete.
 - 4.2. The Risk Assessment concludes that a "site verification (Wetland assessment) must be undertaken to confirm the desktop findings and risk ratings". Should the relevant water use licensing authority require a site verification, then the Department and other registered interested and affected parties (including organs of state) must be consulted again on the findings of the site verification.
 - 4.3. The Risk Assessment was only undertaken for the non-perennial stream. Has it been confirmed by the water use licensing authority that no authorisation is required for development within the regulated area of a watercourse, i.e. 500m radius around the delineated boundary of any wetland?

Comments on the Draft BAR:

5. It is recommended that the BAR, specifically the section dealing with hydrology, be updated to include the applicable water uses. Please further be advised that page 85 erroneously indicates that the "proposed project does not require a Water Use Authorisation in terms of Section 39 of the National Water Act, 1998 (Act No 36 of 1998)". This statement is incongruous with statements made elsewhere in the Draft BAR regarding the need for a water use licence (or general authorisation).

6. Should Heritage Western Cape require the undertaking of any heritage-related specialist study based on their review of the Notification of Intent to Develop, such specialist study/ies must be undertaken and released with a Revised Draft BAR for an additional 30-day commenting period.

7. Page 168 of the Draft BAR refers to the Financial and Technical Competence Report (Appendix H) regarding the calculation of the financial provision for rehabilitation. Said Report is however only available for the review of the EIA competent authority. Page 168 states that "[T]he annual amount required to manage and rehabilitate the environment was estimated to be R 585 760." It is stated in

Table 28 of the Draft BAR (calculation of closure cost) that "[T]he amount that will be necessary for the rehabilitation of damages caused by the operation, both sudden closures during the normal operation of the project and at final, planned closure gives a sum total of R 206 265,35." If the annual amount is indicated as R585 760, should the planned closure total not be 2-5 x more than the annual amount? Kindly explain the differences in the two amounts.

Directorate: Pollution and Chemicals Management – Mr Gunther Frantz (Email: Gunther.Frantz@westerncape.gov.za; Tel.: (021) 483 2975):

8. It is mentioned on page 32 of the Draft BAR that, under very windy/dusty conditions, the applicant/ permit holder might have to substitute alternative dust suppression methods with the spraying of water. In this instance, water would be sourced from an "authorised source" and transported by water truck to moisten the problem area. This Directorate recommends the use of non-potable water for dust suppression activities on internal roads and during mining activities, and the use of potable water must be strictly prohibited. This mitigation measure must be reflected in Table 25 of the Draft BAR related to fugitive dust emission mitigation or written into the EMPr.

Directorate: Waste Management – Ms Sinazo Funda (Email: Sinazo.Funda@westerncape.gov.za; Tel.: (021) 483 2818):

9. Page 42 of the Draft BAR states that "[T]he general waste to be generated at the mine will mainly consist of paper, plastic, tin, and/or glass from the office, workshop and processing area." Since the estimated number of workers in addition to the mine manager were not indicated, it is recommended that where possible and appropriate, the applicant provide separate bins for paper, plastics, metals and glass at the source (office, workshop, and processing areas) for recycling purposes. This segregation will facilitate recycling and reduce the volume of waste being landfilled.
10. The management of hazardous waste primarily arising from accidental spillages refers. Immediate cleanup within two hours of the spill shows a commitment to swift action to manage and mitigate potential environmental impacts. Further, the containment of contaminated soil in designated hazardous waste containers and its daily removal to a specialized off-site workshop for proper disposal, demonstrates adherence to safe waste management protocols.
11. The provision for servicing chemical toilets by a registered contractor ensures that human excrement is managed in a sanitary and environmentally responsible manner. This is critical in preventing and minimizing health risks and potential contamination of ground and surface water resources.

Directorate: Air Quality Management – Mr Etienne Roux (Email: Etienne.Roux@westerncape.gov.za; Tel.: (021) 483 2888):

12. Measures to monitor and prevent fugitive dust emissions should be implemented as per the mitigation measures listed on pages 111 and 155 of the Draft BAR and page 187 of the EMPr.
13. Operational activities such as mining, crushing, loading of crushed rock, and earthmoving equipment may cause significant noise on-site. The noise mitigation measures should be strictly implemented

during all phases of the proposed mining activities, as per page 112 of the Draft BAR and the management measures in the EMPr.

14. Page 84 of the Draft BAR states that operations will likely be limited to daylight hours. This recommendation is supported by this Directorate for implementation and inclusion in the EMPr.
15. The generation of noise on-site must comply with the Western Cape Noise Control Regulations gazetted in Provincial Notice 200/2013. This must be included in the section dealing with noise handling on page 112 of the BAR and relevant sections of the EMPr.

General comments:

16. Please note that the comments and recommendations do not pre-empt the outcome of the application. No information provided, views expressed and/or comments made by officials should in any way be regarded as an indication or confirmation that additional information or documents will not be requested; or of the outcome of the application submitted to the competent authority.
17. The applicant is reminded of its "*general duty of care towards the environment*" as prescribed in section 28 of the National Environmental Management Act, 1998 (Act No. 107 of 1998) which states that "*Every person who causes, has caused or may cause significant pollution or degradation of the environment must take reasonable measures to prevent such pollution or degradation from occurring, continuing or recurring, or, in so far as such harm to the environment is authorised by law or cannot reasonably be avoided or stopped, to minimise and rectify such pollution or degradation of the environment.*" All precautions should be taken to prevent pollution or degradation of the environment.

The Department reserves the right to revise initial comments and request further information based on any or new information received.

Yours sincerely

Directorate: Air Quality Management – Mr Etienne Roux

Dear Madams /Sirs

RE: ACKNOWLEDGMENT OF COMMENTS ON THE DRAFT BASIC ASSESSMENT REPORT AND WATER USE LICENSE APPLICATION FOR PORTION 2 OF FARM BONNE ESPERANCE NO. 83, SARON (DMRE REF: WC 30/5/1/3/2/10352 MP).

We acknowledge receipt of your correspondence dated 14 January 2025, containing consolidated comments from various directorates regarding the Draft Basic Assessment Report (BAR) and the Water Use License Application (WULA) for the proposed mining project. We greatly appreciate your participation in the Public Participation Process (PPP) and your detailed feedback.

Below, we address each point raised by your directorates.

Directorate: Development Facilitation

3. WULA Technical/Motivation Report:

We acknowledge the absence of the WULA Technical/Motivation Report and confirm that this will be prepared and submitted to include all required details:

the goal isn't to live forever, it is to protect a planet that will

- Project Details: Power Construction (Pty) Ltd.
- Location and Water Uses Applied For: Portion of Portion 2 of the farm Bonne Esperance 83, Tulbagh, Western Cape Province, working in or near a watercourse/drainage line.
- Any Existing Lawful Water Uses on the Property: Not applicable.
- WULA Process Undertaken Thus Far: The application is currently in the Enquiries phase, pending a pre-application meeting. The water use reference is WU40775.
- Reports and Other Technical Documents: Not yet relevant; these will be determined following consultation with the DWS.
- Mitigation Measures for Water Use Activity: These will be developed based on the outcomes of the pre-application meeting and subsequent specialist input.
- Summary of Relevant Specialist Reports: A Desktop Risk Matrix Assessment has been conducted to support the pre-application meeting requirements.

Please note that the application is still in its early stages. The WULA technical report will be prepared after completing pre-application discussions and confirming the specific application requirements. This report, required by the Department of Water and Sanitation (DWS), will be submitted during Phase 3 on the e-WULAAS platform.

4.1- 4.3 Site Verification (Wetland Assessment):

Acknowledged. Ground-truthing will be undertaken as required, in consultation with the water use licensing authority, to ensure a comprehensive and compliant Risk Assessment. Should site verification be required, all relevant stakeholders, including this Directorate and other registered Interested and Affected Parties (I&APs), will be consulted on the findings.

5. Hydrology and Water Use Authorisation:

The hydrology section of the BAR will be updated to accurately reflect the applicable water uses. The erroneous statement on page 85 will also be corrected to align with the need for water use authorization.

This matter will be clarified during the pre-application meeting with DWS. A meeting request was submitted on 5 December 2024, and we are awaiting confirmation of a date.

Directorate: Development Facilitation

6. Heritage-Related Specialist Studies:

Should Heritage Western Cape require any specialist studies based on their review of the Notification of Intent to Develop (NID), we will ensure that these studies are undertaken and included in a Revised Draft BAR. Additionally, should this be the case, the Revised Draft BAR will be made available for another 30-day public commenting period, as recommended.

7. Financial and Technical Competence Report Discrepancy:

The discrepancy noted between the annual rehabilitation cost of R585,760 and the planned closure cost of R206,265.35 is clarified as follows:

The amount of R585,760 represents the annual cost required to manage and rehabilitate the environment as part of ongoing environmental management activities during the project lifecycle. This calculation is detailed in the Financial and Technical Competence Report (Appendix H).

The amount of R206,265.35 represents the quantum of the financial provision required to rehabilitate the environment, both for sudden closure during operations and at the planned final closure of the project. This calculation was done in accordance with the applicable guidelines for financial provision.

Both amounts are based on different regulatory requirements and serve distinct purposes. The Final Basic Assessment Report will ensure this distinction is clearly articulated.

Directorate: Pollution and Chemicals Management

8. Use of Non-Potable Water for Dust Suppression:

The recommendation to utilize non-potable water for dust suppression will be reflected in the relevant sections of the BAR and EMPr to ensure compliance.

Directorate: Waste Management

9. Recycling at Source:

Separate bins for recyclable materials (paper, plastics, metals, and glass) will be provided at the office, workshop, and processing areas to facilitate recycling and reduce landfill waste.

10. Management of Hazardous Waste:

The protocols for cleaning hazardous spills and managing contaminated soil will be adhered to and incorporated into the EMPr.

11. Chemical Toilets:

Chemical toilets will be serviced by a registered contractor to prevent environmental and health risks, as recommended.

Directorate: Air Quality Management

12. Fugitive Dust Emissions:

Measures to monitor and mitigate dust emissions will be implemented as per the recommendations in the BAR and EMPr.

13. Noise Mitigation:

Noise control measures will be strictly applied during all operational phases, as detailed in the BAR and EMPr.

14. Daylight-Hour Operations:

Operations will be limited to daylight hours as detailed in the BAR and EMPr.

15. Compliance with Noise Regulations:

Compliance with the Western Cape Noise Control Regulations (Provincial Notice 200/2013) will be ensured and reflected in the relevant sections of the BAR and EMPr.

General Comments

16. General Duty of Care:

The reminder regarding the general duty of care as per Section 28 of the National Environmental Management Act, 1998, is acknowledged. All reasonable measures will be taken to prevent environmental pollution and degradation.

17. Potential for Additional Information Requests:

We understand and accept that additional information or documents may be requested, and we remain committed to fulfilling these requirements.

We thank you for taking part in the public participation process as well as your valuable contribution in providing comments. All comments provided will be incorporated into the Final Basic Assessment Report (FBAR) and submitted to the Department of Mineral Resources and Energy (DMRE), Western Cape Province. DEADP will be informed of the DMRE's decision following the review period.

Kind Regards,

Sonette Smit

Subject: RE: Comments on the Draft BAR and WULA associated with the mining permit on Ptn 2 of Farm Bonne Esperance, Saron (WC 30/5/1/3/2/10352MP and CT31086)

Dear Sonette,

I hope you are well. We acknowledge receipt of the C&RR. Thank you for taking the time to provide us with responses to our comments.

W.r.t. your response on the WULA, kindly note that your request for comments on the WULA may have been premature considering that I&APs were not provided with an opportunity to provide comments on WUL Technical Report. Our understanding of the WULA process is that I&APs only provide comments on the WULA Technical Report after the meeting with the DWS. During this stage, DWS may agree that the water uses qualify for a GA as opposed to a WUL, meaning that a Technical Report would not be required and no further comments from I&APs would be required. You will note this from the diagram on <https://www.dws.gov.za/ewulaas/WUL.aspx> (copied below):

Phase	Description	Responsible person	Time frames
1. Pre-application process	Engagement between the applicant and DWS to determine type of authorisation, conduct site inspection and information requirements.	Applicant	No count
	Applicant submits the application, technical report supporting the application is identified. Applicant compile technical report and submit to the Department		
2. Screening of technical report	The technical reporting supporting the application is screened, resulting in its acceptance or rejected. If rejected the application is closed.	Department	90 days
3. Assessment and decision	The application and technical report are evaluated, leading to recommendations and decision.		

Step 1 (a): Engaging with the DWS. Should the DWS decide that you need to proceed with the WULA and completing the Technical Report, then we would be required to provide comments on the WULA Technical Report for a minimum period of 60 days* (which you have allowed for in your email of 25 November 2024, but without releasing the WULA Technical Report.)

Step 1 (b): Should the DWS require the WULA Technical Report, it is compiled to support the application. Applicants may be requested to advertise the proposed water use, or to invite interested and affected parties to comment.*

*Should the DWS require a PPP, Section 41 (4)(a)(ii) of the NWA, 1998 would apply:

(4) A responsible authority may, at any stage of the application process, require the applicant

–
(a) to give suitable notice in newspapers and other media –

(i) describing the licence applied for;

(ii) stating that written objections may be lodged against the application before a specified date, which must be not less than 60 days after the last publication of the notice; ...

Thus, should the DWS require the undertaking of a WULA Technical Report and a PPP, we should be consulted for our comments. That is our interpretation based on the NWA and the WULA and Appeals Regulations of 2017.

Your response to the financial provision for rehabilitation comment is noted and appreciated. Thank you very much for explaining the difference. Kindly however note that we could not peruse the contents of Appendix H, as indicated in our comments, as said Appendix was only available for review by the DMRE.

The Department appreciates the responses to our other comments. All the best with the submission of the Final BAR to the DMRE.

Kind regards,
Adri

Dear Sonette,

I hope you are well. We acknowledge receipt of the C&RR. Thank you for taking the time to provide us with responses to our comments.

W.r.t. your response on the WULA, kindly note that your request for comments on the WULA may have been premature considering that I&APs were not provided with an opportunity to provide comments on WUL Technical Report. Our understanding of the WULA process is that I&APs only provide comments on the WULA Technical Report after the meeting with the DWS. During this stage, DWS may agree that the water uses qualify for a GA as opposed to a WUL, meaning that a

Attention: Mrs S Smit

Dear Madam

PORTION 2 OF THE BONNE ESPERANCE NO. 83, TULBAGH: TRUNK ROAD 23, SECTION 3: DRAFT BASIC ASSESSMENT REPORT

1. The draft Basic Assessment Report dated November 2024 for the proposed mine on the subject property refers.
2. The subject property is 5 km south from Saron, access is off Trunk Road 23, Section 3 (TR02303, R44).
3. Cognisance is taken of the draft Basic Assessment Report which was undertaken for the proposed mining of sand and pebble on a 5ha area.
4. This Branch is not opposed to the issuing of an Environmental Authorisation for the proposal.
5. The Applicant should note to include dust containment measures in the Environmental Management plan.

Yours Sincerely

DD FORTUIN

RESPONSE TO NOTIFICATION OF INTENT TO DEVELOP: FINAL COMMENT
In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999) and the Western Cape
Provincial Gazette 6061, Notice 298 of 2003

NOTIFICATION OF INTENT TO DEVELOP: PROPOSED DEVELOPMENT OF A 5 HECTARE MINE ON FARM 83 PORTION 2, BONNE ESPERANCE, TULBAGH SUBMITTED IN TERMS OF SECTION 38(1) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999)

The matter above has reference.

Heritage Western Cape is in receipt of your application for the above matter received. This matter was discussed at the Heritage Officers Meeting held on 10 December 2024.

You are hereby notified that, since there is no reason to believe that the proposed development of a 5 hectare mine on Farm 83 Portion 2, Bonne Esperance, Tulbagh will impact on heritage resources, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.

However, should any heritage resources, including evidence of graves and human burials, archaeological material and paleontological material be discovered during the execution of the activities above, all works must be stopped immediately, and Heritage Western Cape must be notified without delay.

This letter does not exonerate the applicant from obtaining any necessary approval from any other applicable statutory authority.

This decision is valid for 5 years from the date of this decision. This period may be extended on good reason being shown and at the discretion of HWC, provided that application for extension must be made prior to the effluxion of the 5-year period.

HWC reserves the right to request additional information as required.

Should you have any further queries, please contact the official above and quote the case number.
