Attention: Mr Shaun Collins

Dear Sir,

This letter is to confirm that the owner of Springvale Farm Elandsplaagte, Mr PA Steyn, hereby provide permission to Raubex Construction to conduct the following work on the

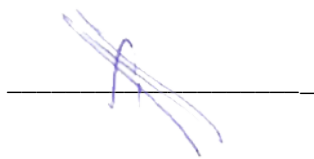

Farm:

1. Clearing & Grubbing of Vegetation
2. Excavating and removal of material of property

We hope the above permission facilitates ease of work on the property.

Yours sincerely

PA Steyn

A handwritten signature in blue ink is written over a horizontal line. The signature is stylized and appears to be the initials 'PA Steyn'.

District Municipality: uThukela**

Dear Ms Smith

Thank you for forwarding the Draft Basic Assessment Report, dated May 2024, for the abovementioned application to Ezemvelo KZN Wildlife (Ezemvelo) for review and comment.

Ezemvelo will not be providing comment on this application, but trust that all significant biodiversity related concerns have been clearly identified and made known in this assessment together with appropriate measures (viz. avoid, mitigate and thereafter ameliorate) to safeguard the ecological integrity of the developable area.

Please be advised that the potential impacts upon biodiversity will be evaluated by the Competent Authority who may, upon identification of a potential biodiversity concern, refer the biodiversity concern to this organisation for evaluation and advice regarding the specific concern, prior to making a decision. In such case, the environmental principles prescribed in the National Environmental Management Act 107 of 1998, the objectives of the National Environmental Management Biodiversity Act 10 of 2004 and best practice will be applied.

Ezemvelo KZN Wildlife wishes you well with your assessment.

Yours sincerely

Attention: Dr. Any Blackmore

Dear Sir

RE: APPLICATION FOR MINING PERMIT IN TERMS OF SECTION 27 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, (ACT 28 OF 2002) AND THE DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR A MINING PERMIT APPLICATION IN TERMS OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) (MPRDA), THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA), AND THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) (EIA REGULATIONS) SUBMITTED BY RAUBEX KZN (PTY) LTD. REFERENCE NUMBER: KZN30/5/1/3/2/10974MP.

Herewith please receive a soft copy of the Draft Basic Assessment Report and Environmental Management Programme in terms of NEMA, 1998 and the EIA Regulations, 2014 (as amended) for the proposed mining of stone aggregate, gravel from 1 ha of a portion of Portion 10 of the Remaining Extent of the farm Schaap Plaats 5689 GS, uThukela Magisterial District, KwaZulu-Natal Province.

- a. This package therefore contains:
 - i. **Authority, case office and reference:** Department of Mineral Resources and energy,
Case office: Ms. Hlengiwe Mthembu
Dmre Reference: KZN 30/5/1/3/2/10974MP
 - ii. **Consultant:** Sonette Smit (084 585 5706) sonette.s@greenmined.co.za
 - iii. **Applicant:** Raubex KZN (Pty) Ltd : Mr. Shaun Collins , 031 700 6411
shaun.c@raubex.com

the goal isn't to live forever, it is to protect a planet that will

DMRE Reference No: KZN30/5/1/3/2/10974MP

- iv. **Project name:** Steyns Borrowpit
- v. **District Municipality:** uThukela District Municipality and
- vi. **Local Municipality:** Alfred Duma Local Municipality
- vii. **Location:** The Remaining Extent of Portion 10 of Schaap Plaats 5689 GS, situated in the Magisterial District of Uthukela of KwaZulu-Natal Province. ±15 km northeast of Ladysmith.

Using the N11, head northeast for approximately 15km. The entrance to the proposed mining area is found on the left of the road.

- viii. **21digit code and coordinates:** N0GS00000000568900010
- ix. **Coordinates of Permit Area:**

NUMBER	DEGREES, MINUTES, SECONDS		DECIMAL DEGREES	
	LAT (S)	LONG (E)	LAT (S)	LONG (E)
A	28°26'7,166"S	29°53'46,021"E	-28,435324°	29,896117°
B	28°26'5,784"S	29°53'49,236"E	-28,43494°	29,89701°
C	28°26'8,920"S	29°53'50,431"E	-28,435811°	29,897342°
D	28°26'10,334"S	29°53'47,105"E	-28,436204 °	29,896418°

- x. **Current Land use:** Agricultural land
- xi. **Application Area Extent:** 1 ha

Proposed activity: The proposed mining footprint will be 1 ha and will be developed over a previously disturbed area of the farm. The area has a history of disturbance due to previous excavation activities and is currently utilized for cattle grazing by the farm owner. Additionally, adjacent to the proposed permit application area lies the approved spoil site for the N11 project, indicating a pre-existing alteration of the landscape. Furthermore, the construction of a new bypass road for the N11 to the east of the site has been completed, utilizing existing excavation resources. These factors underscore the existing land use dynamics and alterations in the vicinity. The mining method will make use of excavation by means of earth moving equipment. The material is then loaded and hauled away from this

the goal isn't to live forever, it is to protect a planet that will

site where it will be stockpiled and transported to clients via trucks and trailers. The infrastructure will be of temporary nature as a mining permit can only be valid for a maximum of 5 years. The farm track currently in use for the construction activities in the area will undergo periodic improvements to facilitate the movement of vehicles associated with the project. Chemical toilets will be used, and the project will appoint local employees where possible.

Due to the small scale of the operation no permanent infrastructure will be built at the mining area.

The mining activities will consist out of the following:

- Stripping and stockpiling of topsoil.
- Excavating.
- Stockpiling and transporting of material.
- Sloping and landscaping upon closure of the site; and
- Replacing the topsoil and vegetation the disturbed area.

The mining site will contain the following:

- Excavating equipment.
- Earth moving equipment.
- Site vehicles.
- Parking area for visitors and site vehicles.
- Ablution facilities (Chemical toilet).

xii. Locality Map (Memory Stick)

b. Shape or Kmz file: included (Memory stick)

c. Document to be reviewed: One (1) electronic copy of the draft BAR & EMPr, (Memory Stick)

The I&AP's and stakeholders were notified of the availability of the report and 30 days commenting period until 10 June 2024 will be allowed for comments.

A copy of the documents and all related appendices are included in the USB/Memory stick. These documents can also be downloaded from the company website at <https://www.greenmined.com/mining-permits/>. We trust you find this in order. Please do not hesitate to contact me in the event of any uncertainties.

Kind Regards

A handwritten signature in black ink, appearing to read 'Smit', is positioned above the printed name.

**PROOF OF CORRESPONDENCE WITH CLR MR M
KHOZA FROM ALFRED DUMA MUNICIPALITY
WARD 14 ON 10 MAY 2024**

Messages and calls are end-to-end encrypted. No one outside of this chat, not even WhatsApp, can read or listen to them. Select to learn more.

Dear Mr Xulu, my name is Anel, calling from Greenmined Environmental. Raubex KZN has appointed us as the environmental specialists for a mine application that falls under Alfred Duma LM, and also under Ward 14. As per Department of Minerals government requirement we need to provide all the stakeholders with written communication on the project. Considering the above can you kindly send me your email address to forward all the information to you?

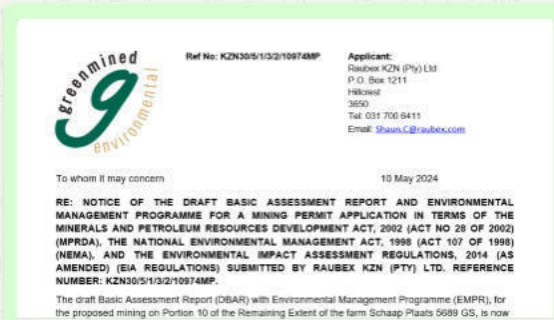

Thank you in advance,
Anel Olivier from Greenmined Environmental 🌿

1. ALL applications for Eskom KZN must be sent to KZNOU-LandR@eskom.co.za OR KZNOU-L&R@eskom.co.za without copying any individuals in Eskom to avoid duplication and /or confusion.
2. For Wayleaves/Queries/Investigation/ Comments, Please open the following attached document.

ESKOM
REQUIREMENTS.pdf

3. For Blasting/Mining Applications Please open the following attached document to see Eskom's Requirements.

BLASTING
APPLICATION FORM

4. For availability of supply or capacity queries, Eskom's Lands & Rights Department will obtain the necessary information from Eskom's Planning Department & reply accordingly.
5. Masts should be erected further than its fall distance from any Eskom infrastructure.

Mast_Eskom
Condition.pdf

5. For Requests of Eskom's Spatial Data - Please send email to Eskom's ESIGIS Department:

Ms Mmbengeni Makungo on email MakungM@eskom.co.za

A developer taking a new supply from Eskom, an increase of supply or line deviation is required to make an application to Eskom via the Eskom toll free number 0860037566. This application will be processed in terms of Eskom's standard customer connection tariffs, conditions and policies at the developers cost.

ESKOM LANDS & RIGHTS PLEDGES TO DO IT'S BEST TO DELIVER A QUALITY SERVICE TO ALL CUSTOMERS.

Kind Regards,

Siyabonga Nsele
Manager (Eskom - Land & Rights)
CentralEast Cluster
031 710 5264 / 073 550 1572
NseleSi@eskom.co.za

PLEASE NOTE:

- **IT CAN TAKE UP TO 14 DAYS FOR ESKOM TO REPLY DEPENDING ON THE NATURE OF THE QUERY / INVESTIGATION.**
- **MISSING OR EXCLUSION OF ANY INFORMATION OR DATA REQUIRED BY ESKOM WILL DELAY ESKOM'S RESPONSE.**

1. In Order for Eskom to comment / reply accurately, Eskom needs the applicant to send an application/ Cover Letter via email, addressed to the Lands & Rights Manager, Mr Siyabonga Nsele.

Your Cover Letter should include most of the following:

Full name of applicant:

Applicant's address:

Telephone: (code) (number)/Cellular Number

Full Property Description as per Title Deed

Registration Division:

Farm or Agricultural Holding:

Name:

Farm Number / Portion:

Name of Township:

Erf Number:

Job Ref No:

2. For most investigations/queries the following is necessary:

DETAILED SURVEY PLAN on reasonable scale in a digital file format ((KML, KMZ, DXF or DGN) correctly projected in WG indicating the following:

- **DGN files supplied to be as per Eskom Standard (Projected WG, Microstation V8;V8i)**
- Co-ordinates, in the format of degrees, minutes and one decimal of a second/Y, X co-ordinates indicating the position of the **proposed development and existing infrastructure.**
- The dimensions of the structure or object e.g. height, length, and width, as well as any other accessories such as storm water pipes etc.
- Cross sections of buildings with the dimensions accurate to 0,1 metres indicating cut/fill and final finished level.
- The distance from the nearest power line structure, distances relative to the centre line of the power line,
- Positions and heights of proposed stockpiles,
- North arrow.
- Relevant SG Diagrams

NB. Architectural plans will not be accepted.

Dear Samantha,

Thank you for your email, and comments on the Draft Bar Basic Assessment Report.

I will forward your concerns to the consultant and give feedback as soon as possible.

Warm regards,
Anel

Kind Regards/Vriendelike Groete

- iv. **Project name:** Steyns Borrowpit
- v. **District Municipality:** uThukela District Municipality and
- vi. **Local Municipality:** Alfred Duma Local Municipality
- vii. **Location:** The Remaining Extent of Portion 10 of Schaap Plaats 5689 GS, situated in the Magisterial District of Uthukela of KwaZulu-Natal Province. ±15 km northeast of Ladysmith.

Using the N11, head northeast for approximately 15km. The entrance to the proposed mining area is found on the left of the road.

- viii. **21digit code and coordinates:** NOGS00000000568900010
- ix. **Coordinates of Permit Area:**

NUMBER	DEGREES, MINUTES, SECONDS		DECIMAL DEGREES	
	LAT (S)	LONG (E)	LAT (S)	LONG (E)
A	28°26'7,166"S	29°53'46,021"E	-28,435324°	29,896117°
B	28°26'5,784"S	29°53'49,236"E	-28,43494°	29,89701°
C	28°26'8,920"S	29°53'50,431"E	-28,435811°	29,897342°
D	28°26'10,334"S	29°53'47,105"E	-28,436204 °	29,896418°

- x. **Current Land use:** Agricultural land
- xi. **Application Area Extent:** 1 ha

Proposed activity: The proposed mining footprint will be 1 ha and will be developed over a previously disturbed area of the farm. The area has a history of disturbance due to previous excavation activities and is currently utilized for cattle grazing by the farm owner. Additionally, adjacent to the proposed permit application area lies the approved spoil site for the N11 project, indicating a pre-existing alteration of the landscape. Furthermore, the construction of a new bypass road for the N11 to the east of the site has been completed, utilizing existing excavation resources. These factors underscore the existing land use dynamics and alterations in the vicinity. The mining method will make use of excavation by means of earth moving equipment. The material is then loaded and hauled away from this

the goal isn't to live forever, it is to protect a planet that will

site where it will be stockpiled and transported to clients via trucks and trailers. The infrastructure will be of temporary nature as a mining permit can only be valid for a maximum of 5 years. The farm track currently in use for the construction activities in the area will undergo periodic improvements to facilitate the movement of vehicles associated with the project. Chemical toilets will be used, and the project will appoint local employees where possible.

Due to the small scale of the operation no permanent infrastructure will be built at the mining area.

The mining activities will consist out of the following:

- Stripping and stockpiling of topsoil.
- Excavating.
- Stockpiling and transporting of material.
- Sloping and landscaping upon closure of the site; and
- Replacing the topsoil and vegetation the disturbed area.

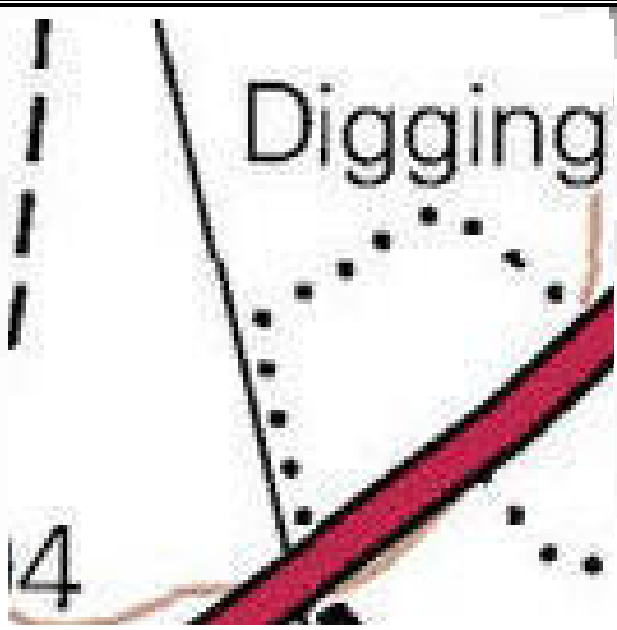

The mining site will contain the following:

- Excavating equipment.
- Earth moving equipment.
- Site vehicles.
- Parking area for visitors and site vehicles.
- Ablution facilities (Chemical toilet).

Dear Miss Smit

ESKOM DISTRIBUTION COMMENTS

RE: APPLICATION FOR MINING PERMIT IN TERMS OF SECTION 27 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, (ACT 28 OF 2002) AND THE DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME FOR A MINING PERMIT APPLICATION IN TERMS OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT NO 28 OF 2002) (MPRDA), THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA), AND THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) (EIA REGULATIONS) SUBMITTED BY RAUBEX KZN (PTY) LTD. REFERENCE NUMBER: KZN30/5/1/3/2/10974MP - PORTION 10 OF THE REMAINING EXTENT OF THE FARM SCHAAP PLAATS NO. 5689

With reference to your emailed application and accompanying plans Received by this office on the 05th of June 2024, we confirm that an investigation has been carried out with regard to the supply of electricity, as well as any encroachment into Eskom's Servitudes, in respect to the application as set out above.

Platberg NB34 ,11-kV Overhead Line is the only **Distribution** asset showing to exist on our system which traverses the subject property as shown on the KML application file "Steyn Borrow pit - 1 hectares ESKOM". Refer to the attached Eskom Diagram ER_INV_325/2024.

The following Eskom Distribution Regulations shall apply:

Building Restrictions for 11-kV Overhead Power Lines

KZN Operating Unit

Land Development Department
25 Valley View Road New Germany
PO Box 66 New Germany 3620 SA
Tel +27 31 710 5111 Fax +27 31 710 5146 www.eskom.co.za

No building or structures may be erected or installed above or below the surface of the ground, neither may any material which might endanger the safety of this power line be placed within 12 (twelve) metres from the center line of this power line, on either side (overall servitude width 24 metres).

The applicant will adhere to all relevant environmental legislation. Any cost incurred by Eskom as a result of non-compliance will be charged to the applicant. Dimensions and specifics will be in accordance to ESKOM standards so as to not obstruct Eskom's existing infrastructure in any way.

Eskom shall not be liable for the death of or injury to any person or for the loss of or damage to any property whether as a result of the encroachment or of the use of the servitude area by the applicant, his/her agent, contractors, employees, successors in title, and assigns.

The clearances between Eskom's live electrical equipment and the proposed construction work shall be observed as stipulated by Regulation 15 of the Electrical Machinery Regulations of the Occupational Health and Safety Act 85 of 1993. Equipment shall be regarded electrically live and therefore dangerous at all times.

The applicant indemnifies Eskom against loss, claims or damages including claims pertaining to consequential damages by third parties and whether as a result of damage to or interruption of or interference with Eskom's services or apparatus or otherwise. Eskom will not be held responsible for damage to the applicant's equipment. The applicant's attention is drawn to the Electricity Act, 1987, (Act 41 of 1987, as amended in 1994), Section 27(3), which stipulates that the applicant can be fined and/or imprisoned as a result of damage to Eskom's apparatus.

Mining and the use of explosives of any type within 500 metres of Eskom's services shall only occur with Eskom's prior written permission. If such permission is granted the applicant must give at least fourteen working days prior notice of the commencement of blasting. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued in terms of the blasting process.

No mechanical equipment, including mechanical excavators or high lifting machinery, shall be used in the vicinity of Eskom's apparatus and/or services, without prior written permission having been granted by Eskom

Any third party servitudes encroaching on Eskom land shall be registered against Eskom's Notaries deed at the applicant's own cost. If such a servitude is brought into being, its existence should be endorsed on the Eskom servitude deed concerned, while the third party's servitude deed must also include the rights of the affected Eskom servitude.

A developer taking a new supply from Eskom, an increase of supply or line deviation is required to make an application to Eskom via the Eskom toll free number 0860037566. This application will be processed in terms of Eskom's standard customer connection tariffs, conditions and policies at the developer's cost

NB. Customers requiring Substation or Powerlines to be installed for their purpose/supply their development must grant all servitudes (a piece of ground on the property to be developed) to Eskom at no cost.

This letter outlines the Eskom (Distribution) building restrictions and is by no means an approval for construction. Prior to any construction activity, the applicant is required to contact the Eskom Offices in Ladysmith Senior Supervisor Mr Lwazi Mdingwa (011 871 2087 / 074 380 8686 [/MdingwLP@eskom.co.za](mailto:MdingwLP@eskom.co.za)) and detailed Surveyed Plans are to be submitted to this office.

Attached is an application form for your attention.

Yours sincerely

p.p. 
SS Nsele

Lands and Rights Manager

APPLICATION FORM: PERMISSION FOR BLASTING OPERATIONS WITHIN 500 METRES FROM ANY ESKOM HOLDINGS LIMITED, REGISTRATION NUMBER 2002/015527/06, (HEREINAFTER REFERRED TO AS “ESKOM”) POWER LINE, PIPE LINE, POWER STATION, SUBSTATION OR ANY OTHER SUPPORTING INFRASTRUCTURE

1. APPLICANT

1.1 OWNER / SERVITUDE HOLDER

FULL NAMES: _____

_____ CODE: _____

1.2 BLASTING CONTRACTOR

FULL NAMES: _____

AUTHORISED REPRESENTATIVE: _____

TEL NO.: _____ FAX NO.: _____

POSTAL ADDRESS: _____
_____ CODE: _____

2. REQUIREMENTS FOR PERMISSION TO BLAST

The Owner/Servitude Holder/Blasting Contractor must comply with the following conditions which must be supported with the following documentation:

- 2.1 The Contractor must submit a certified copy of his Excavation/Demolition Certificate.
- 2.2 A blasting plan indicating Eskom's infrastructure.
- 2.3 A certified copy of the Inspector of Mines' permission for blasting.

- 2 -

- 2.4 If the applicant is not the registered owner the written permission of the owner to cross Eskom's servitude is required.
- 2.5 The Owner/Servitude Holder/Blasting Contractor must furnish Eskom with a certified copy of a valid insurance policy covering blasting operations.

3. CONDITIONS

Conditions applicable to blasting operations which will be deemed to have been accepted by the applicant (Owner/Servitude Holder/Blasting Contractor) in the event of Eskom granting its written and signed permission.

- 3.1 No blasting operations may be undertaken in close proximity of Eskom's power lines, pipe lines, power stations, substations, cables, radio/microwave stations, roads, railway lines, water storage facilities (hereinafter referred to as "infrastructure") unless the following precautions have been taken:
 - 3.1.1 Only single shot blasting may be used.
 - 3.1.2 The Peak Particle Velocity (P.P.V.) may not exceed 75mm/s for infrastructure or 50mm/s for buildings.
 - 3.1.3 A seismic controlling device is set up to record the above readings.
 - 3.1.4 The air blast is controlled by means of adequate matting where the face of the blast is towards Eskom's infrastructure.
- 3.2 No mechanical equipment, including mechanical excavators, may be used under or in close proximity to Eskom's infrastructure without the prior written approval of Eskom.
- 3.3 All statutory requirement in terms of the following Acts or their amendments with regulations must be complied with at all times:
 - 3.3.1 Environment Conservation Act No. 73/1989.
 - 3.3.2 Explosives Act No.15 of 2003.
 - 3.3.3 Minerals Act No. 50 of 1991.
 - 3.3.4 Occupational Health and Safety Act No. 85 of 1993.
 - 3.3.5 Electricity Regulation Act No. 4 of 2006.
- 3.4 No piles of waste shall be generated beneath the line in the servitude area or left therein and the land must be rehabilitated.
- 3.5 A cover shall be installed over the drill rig to minimise the amount of dust and water near the conductors.
- 3.6 Eskom shall at all times have an unobstructed access to and egress from its services.
- 3.7 Eskom requires 7 days prior written notice before any blasting operations are commenced with.

4. CHARGES, LIABILITY AND INDEMNITY

Eskom reserves the right to charge the applicant:

- 4.1 An application fee.
- 4.2 A fee for time on site during blasting activities, inspection of rehabilitation, travelling time and expenses.
- 4.3 Costs incurred by Eskom to comply with statutory requirements in terms of an applicant's (or his contractor's) works, equipment or plant in the servitude area, such costs shall be paid to Eskom on demand.
- 4.4 The Contractor will be held responsible for any costs if:
 - Eskom towers, conductors or substation equipment subside or are damaged as a result of blasting activities.

Such proven costs shall be paid on demand.

- 4.5 The Owner/Servitude Holder/Blasting Contractor indemnifies Eskom against all claims arising from the death of or injury to any person or for the loss of or damage to any property caused in whatsoever manner by the Contractor during blasting operations including claims for consequential damages by third parties which includes but is not limited to claims as a result of damage to or interruption of or interference with Eskom's services or equipment.
- 4.6 Eskom shall at all times have unobstructed access to and egress from its servitude area.
- 4.7 The Owner/Servitude Holder/Blasting Contractor will be liable to Eskom for any damage caused to Eskom's transmission lines, structures and the site within the servitude area as a result of its operations.
- 4.8 The Owner/Servitude Holder/Blasting Contractor accept liability jointly and severally, in *solidum*, for the fulfilment of any conditions and payment of any claims arising out of the blasting operations as set out herein.
- 4.9 On date of Eskom granting its written and signed permission to the Owner/ Servitude Holder/Blasting Contractor to proceed with the blasting operations, it will be deemed that the Owner/Servitude Holder/Blasting Contractor has accepted all the conditions and liabilities as set out in paragraphs 3 and 4 herein.

5. DOMICILIUM

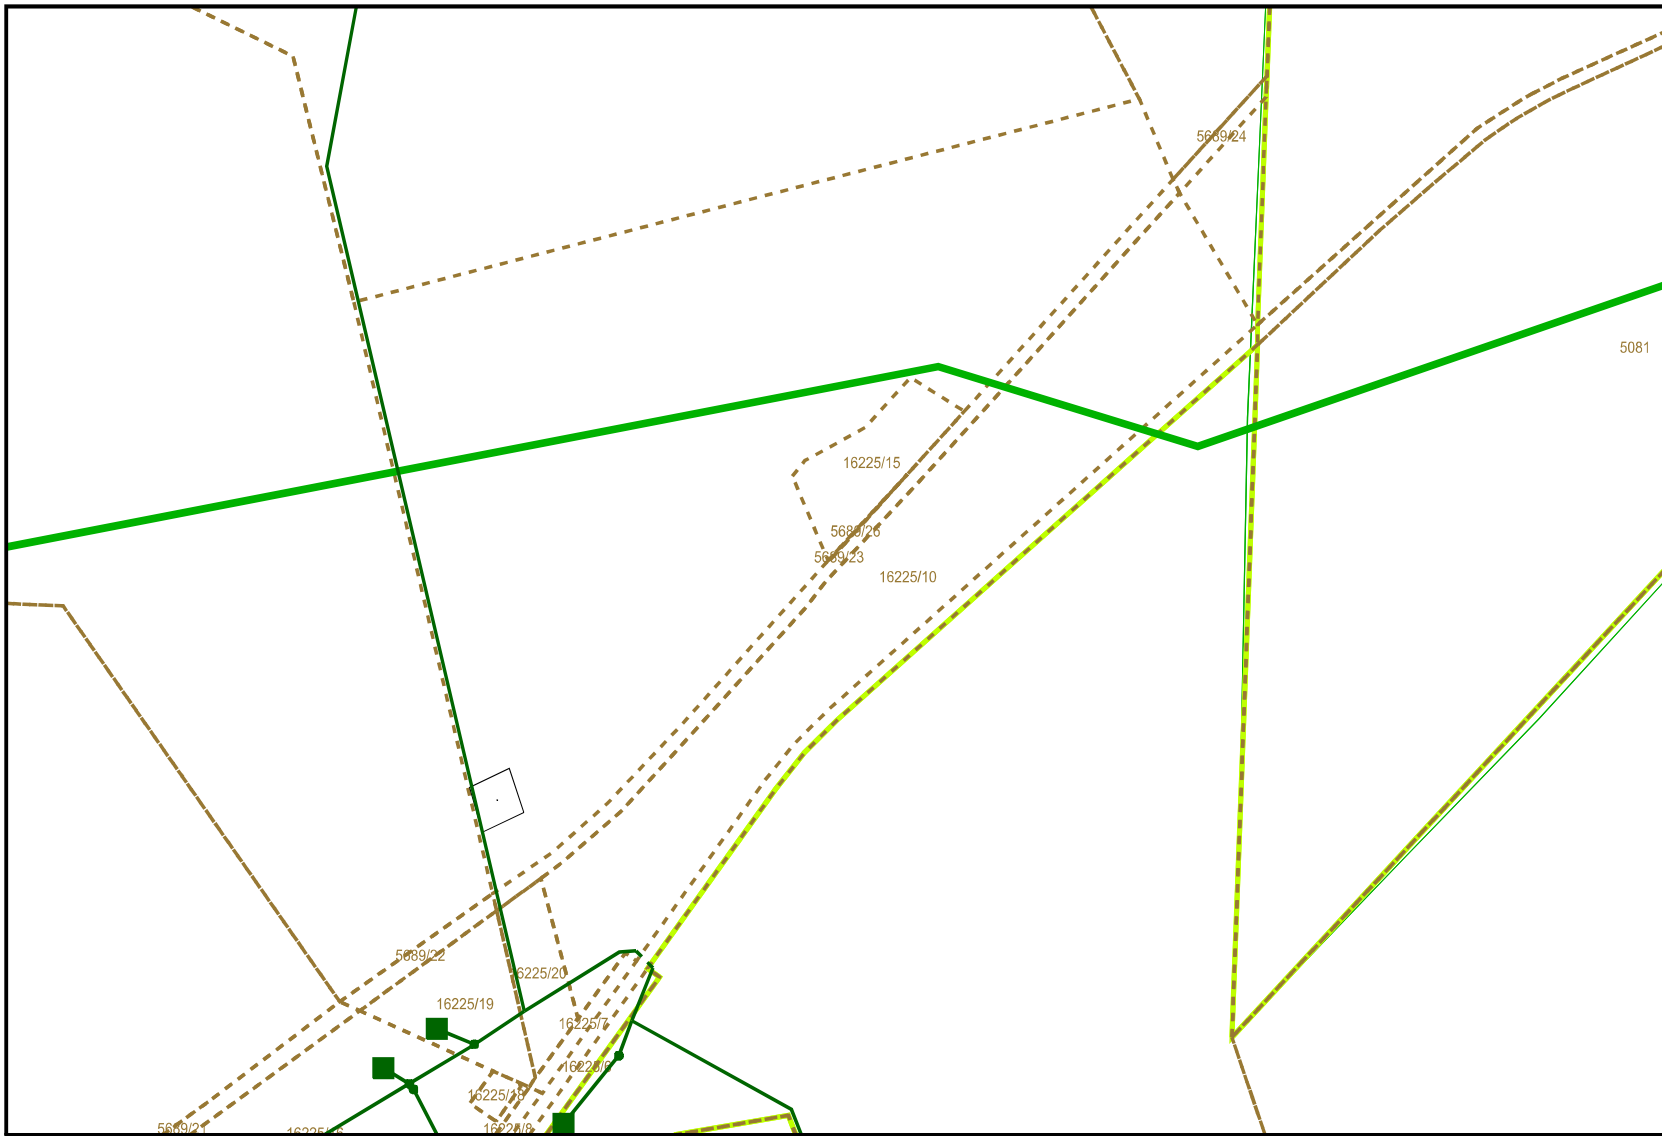

The Owner/Servitude Holder/Blasting Contractor and Eskom choose the following physical addresses as their respective domicilium citandi et executandi for all purposes pertaining to this agreement:

5.1	The Owner	<u>Correspondence Postal Address</u>

Case Status: SUBMITTED

Heritage Authority(s): Amafa

Proposal Description

The Applicant, Raubex KZN (Pty) Ltd, is applying for environmental authorisation (EA) and a mining permit (MP) over 1 ha of a part of the Remaining Extent of Portion 10 of Schaap Plaats 5689 GS, situated in the Magisterial District of Uthukela of KwaZulu-Natal Province.

The proposed mining footprint will be 1 ha and will be developed over a previously disturbed area of the farm. The area has a history of disturbance due to previous excavation activities and is currently utilized for cattle grazing by the farm owner. Additionally, adjacent to the proposed permit application area lies the approved spoil site for the N11 project, indicating a pre-existing alteration of the landscape. Furthermore, the construction of a new bypass road for the N11 to the east of the site has been completed, utilizing existing excavation resources. These factors underscore the existing land use dynamics and alterations in the vicinity. The mining method will make use of excavation by means of earth moving equipment. The

material is then loaded and hauled away from this site where it will be stockpiled and transported to clients via trucks and trailers. The infrastructure will be of temporary nature as a mining permit can only be valid for a maximum of 5 years. The farm track currently in use will undergo periodic improvements to facilitate the movement of vehicles associated with the project. Chemical toilets will be used, and the project will appoint local employees where possible.

The proposed mining footprint will be 1 ha and will be developed over a previously disturbed area of the farm. The area has a history of disturbance due to previous excavation activities and is currently utilized for cattle grazing by the farm owner. Additionally, adjacent to the proposed permit application area lies the approved spoil site for the N11 project, indicating a pre-existing alteration of the landscape. Furthermore, the construction of a new bypass road for the N11 to the east of the site has been completed, utilizing existing excavation resources. These factors underscore the existing land use dynamics and alterations in the vicinity. The mining method will make use of excavation by means of earth moving equipment. The material is then loaded and hauled away from this site where it will be stockpiled and transported to clients via trucks and trailers. The infrastructure will be of temporary nature as a mining permit can only be valid for a maximum of 5 years. The farm track currently in use will undergo periodic improvements to facilitate the movement of vehicles associated with the project. Chemical toilets will be used, and the project will appoint local employees where possible.

More Anel,

Ek sien in die dokument het Mnr. Steyn 30/04/2024 geteken vir die projek op Schaapplaats ptn 10. Hierdie projek het reeds etlike maande vooraf begin (Augustus 2023). Die een kant van die projek vorm n grens met my eiendom. Verder het hierdie projek 'n geweldige impak op toegang na my privaat woning. Die bestaande motorhek toegang is verwyder en vervang met n hek. Die hek is problematies ten opsigte van sekuriteit wanneer my familie moet stilhou en uitklim om deur te ry. Met hoë syfers vir plaas aanvalle is dit glad nie 'n ideale toegangs wyse nie. Wanneer die hek wel oop staan, is daar die gevaar van beeste wat uitkom en ernstige ongelukke kan veroorsaak op die N11 pad. Aanspreeklikheid vir die hek wat oopstaan, is problematies aangesien verskeie partye gebruik maak van die toegang. 'n Werkbare ooreenkoms na my mening sou wees om n motorhek te plaas vir privaat toegang tot wonings en dan n hek vir die kontsuksie maatskappy wat dan alleen gebruik en aanspreeklikheid daarvoor aanvaar.

Groete,
De Wet Jacobs

Goeie dag Mnr De Wet,

Dankie vir u deelname in ons publieke deelname proses.

Dit blyk dat jou bekommernis dalk nie direk verband hou met die nuwe mynaansoek, maar eerder met die stortingsterrein vir die N11 self.

Om u bekommernisse doeltreffend aan te spreek, het ons u kommentaar na die aansoeker gestuur vir terugvoering, sien aangeheg korrespondensie in hierdie verband. Hulle is opdrag gegee die plaaseienaar, mnr Steyn, wat die hek ingesluit het, te hervestig. Mnr Steyn is geraadpleeg tydens die verskuiwing en die voltooide installasie en kan ongelukkig geen opdrag van 'n buite party neem nie. U is welkom om hulle direk te kontak in die verband om die kwessie verder te bespreek en enige nodige verduideliking of oplossing te verskaf.

Ons waardeer u betrokkenheid by hierdie aansoek en vertrou dat hulle u bekommernisse betyds sal aanspreek.

Kind Regards/Vriendelike Groete

Subject: RE : SHARP SHARP FRESH FOOD (PTY) LTD

Good Afternoon Mr Marshall

I hope you are well

Thank you for the correspondence received in terms of the gate relocation on the Fairfield Farm

In terms of our Contract and the specification set out by our Client, we were required to relocate the fence line for the temporary deviation.

As instructed, we communicated with the farm owner, Mr Steyn to relocate the fence, which included the gate. Mr Steyn was consulted during the relocation and the completed installation. Mr Steyn requested us, Raubex not to reinstall the cattle grid as was originally installed.

In addition, we received a confirmation with regards to the installation that was done by the Contractor.

We do understand your correspondence and concern as addressed in the letter.

In our opinion, we can not be instructed by an external party to alter installation and other work without the owner's consent.

We would assist in the matter going forward once the two farmer's has reached an agreement between them.

Kind Regards,

Shaun Collins (Pr Tech) | Contracts Manager

Hi Shuan

Let me know if you are dealing with this and how we will deal with it

If they deem it fit to apply for Spoliation Application then it must be served on the owner of the property and who we are in discussion with

It seems as if we are caught in the middle of the two owners issues

Subject: Fwd: Redirecting of rain water Farm 69 Pepworth

Hi Anel

I have this issue and originates from Mt Steyn's farm.

They promise to come to do an assessment of my dam and nobody came.

My dam is also loaded with fish, so if their equipments have oil leaks what will happen to them.

Regards

Njabulo

Afternoon Carlos

I spoke to your stormwater foreman Thynuis on Saturday and yesterday.

They are busy redirecting the whole catchment into my dam which is on a private property without consulting the owner.

That dam is already overflowing with its original catchment.

If it bust or any damage is caused to my property and dam Raubex will pay for it.

Vincent called me yesterday and I asked him to facilitate a meeting with you and the engineer to carry out a proper assessment.

Regards

Njabulo

Good morning Njabulo.

I can confirm the mails from my Colleagues below are nothing further from the truth.

The water currently accumulating in the dam is from the abnormal rainfall that was experienced a few weeks ago.

The works that will be done under this project will not increase the catchment area, nor increase the amount of water in this watercourse.

No water has been redirected to your property.

I would like to ask if there is a sluice gate on the dam? In addition to the overflow discharge, this can assist to regulate the amount of water in the dam.

I am happy to arrange for an assessment and see how best we can address any misunderstandings that you may have.

Best regards,

Ogopoleng Modise

Subject: Re: Redirecting of rain water Farm 69 Pepworth

Good afternoon

If you guys are happy, that the redirecting and channeling of water into my dam is safe then it's fine.

If any damage to my property or dam based on water breaks the dam wall.

I will hold Raubex accountable, as no one is willing to come do a thorough assessment of this matter.

Regards

Njabulo

On Thu, 25 Jan 2024, 15:58 Shaun Collins, <Shaun.C@raubex.com> wrote:

Good Afternoon Njabulo

With reference to the trailing emails and the issues raised.

Please take note, the upgrade of the road and the extension of the stormwater systems was inspected, analysed and designed by the Engineers prior to construction and approved by SANRAL.

None of the works which is currently being constructed by Raubex is to damage and create problems alongside the route. All works is done to upgrade and ensure a safer road for the public to use.

IN terms of the hydraulic impact of the stormwater system, all runoff must be discharged away of the road system and the natural waterflow is downstream as you are aware.

Per the information you have provided, you dam has a overflow which is constructed to discharge water when it reached a specified level. This provides for additional water to enter your dam and overflow downstream as needed.

Please take note, none of the works which was design and will be constructed will have a negative impact on the adjacent landowners of the public users of the road.

Kind regards

Subject: Re: Redirecting of rain water Farm 69 Pepworth

Good morning

Without any catchment analysis, I won't take your word for it.

Yes it is a private property, then don't redirect your water into my dam without my permission.

This dam has existed for more than 30 years with the natural ground as its feeder.

Channelled water and naturally controlled water don't have a same speed or perform in the same manner.

I am asking for a proper inspection from an engineer, not just a pass by inspection that you did yesterday.

You are also stating the abnormal rain and that alone calls for extra caution to be taken.

I am trying to avoid any unnecessary disputes before anything happens.

Regards

Njabulo

On Thu, 25 Jan 2024, 09:00 Ndumiso Gumede, <Ndumiso.G@raubex.com> wrote:

Good day,

I will emphasise again, we have not changed anything, your are still receiving the same amount of stormwater as before, we are not responsible for abnormal rain.

Please note that your dam is a private property and Raubex will not be held liable for it.

Mr Modise,

Please comment if you can in this regard.

Kind regards,

From: Wiseman Maunze <tsipondwane@gmail.com>

Good morning

My dam is not overflowing as it has a spillway and is able to self regulate as the water speed is minimal.

Your stormwater pipes will raise the speed of water which was reduced by the vegetation. Before you bypass, there was a low point which also lowered and hold some water.

I will like to see your catchment analysis as I am disputing that all that water comes to my dam.

Regards

Njabulo

On Thu, 25 Jan 2024, 08:10 Ndumiso Gumede, <Ndumiso.G@raubex.com> wrote:

Good day Mr Maunze,

Following our inspection on site yesterday;

please note that our team has not changed the catchment area of the stormwater as we are using existing drainage channels. The amount of water flowing through the storm water pipe leading to your dam has not changed, we only installed a storm water pipe on our deviation to redirect the water away from the existing road.

Please note that Raubex will not be held responsible for your- overflowing dam which is a result of abnormal rainfall that has fallen recently.

I hope you find the above in order.

Kind regards,

Good day Njabulo,

Thank you for your participation in the public consultation process. We have carefully reviewed your concerns regarding the water. It appears that your concern may not be directly related to the new mining application but rather to the management approved spoiling site for the N11 itself.

To address your concerns effectively, we have forwarded your matter to the contractor responsible for the N11 spoiling site. They will be in direct contact with you to discuss the issue further and provide any necessary clarification or resolution.

We appreciate your engagement in this matter and trust they will address your concerns in a timely manner.

Kind Regards/Vriendelike Groete
